

Taupō District Council
Taupō Ward
Electing 7 Councillors

Veronica KING

Independent

My principal place of residence is in the Taupō Ward area.

Taupō has proudly been my home for 32 years. Blessed with six children and 23 grandchildren, I am passionate to see a solutions-driven council that will provide hope, celebrate diversity and

drive change, so this generation and the next, can prosper and thrive.

Highly experienced in community engagement, I specialise in community-led development and facilitation - recently developing the Age Friendly Taupō District Plan - promoting the health and wellbeing of our older population. For eight years I led the welfare function in emergency management, advocating resources for stronger community-wide resilience and preparedness.

I have collaborated with a broad range of community groups (including grassroots and government), and as a former council employee, I am widely informed, engaged, and educated.

I will ask the hard questions, and do the hard work to see our social, environmental, cultural, and economic wellbeing needs addressed.

I stand for: Diversity - Hope - Solutions - Change.
