

Taupō District Council
Taupō Ward
Electing 7 Councillors

Rachel SHEPHERD

Independent

My principal place of residence is in the Taupō Ward area.

I live and was raised in Taupō, now I'm raising my own family here. I've managed commercial/industrial property in Taupō's CBD and surrounds for 12 years and have a strong

operational and project management background.

I'm passionate about the Taupō District and lifting community spirit, which is especially important in the current economic climate. Community should be structured from the ground up, not the top down. Our voices need to be heard and local needs met.

I intend to lend my voice and presence to advocate on behalf of our community. That may mean asking tough questions, defending our right to local democracy & transparency but I am confident in my ability to do that.

Change and a new perspective is needed now more than ever, I'd like to help drive that change not just talk about it. Taupō needs effective governance and genuine accountability, your vote for me will count towards that.
